A Chrysler Chronicle Jun 26 2022 There are two kinds of classic car buffs: those who have restored an old car, and those who want to. For anyone who has looked at a rusty heap in a field and seen only the gleaming new machine it once was, the urge is powerful, but also intimidating. Restoration can be a difficult, expensive, and--especially for the novice--mysterious undertaking. Dave Floyd, an enthusiast with a lifelong love for the great cars on the road in his youth, is one who answered the call. In this book he traces every step of restoring a long-neglected 1948 Chrysler New Yorker to its original glory, all on a real-world budget and in the spare hours left by a full-time job. Every task, every discovery, every obstacle, every triumph and frustration comes through in a detailed account that is part diary, part practical guide, part love

story. Told with great charm, his story is inspiring to any prospective old-car hobbyist, and a special treat for Chrysler devotees.

American Automotive Design Trends / The Couture Car: High Style for High Society Dec 29 2019 Paperback: People like shiny things. Few things are shinier than cars: paint, trim and chrome. And people like soft things, like pillow-top beds, sofas and recliners. Cars interiors followed this home trend. Yet, people wanted to make more of a statement as it related to their cars and they got it in generous doses of style via the Couture Car. Ask anyone what automotive brand is associated with designer cars and the reply is likely to be Lincoln. To say that Lincoln dominated the field of Couture Cars would be an

understatement. From 1976 through 2003, Lincoln had one or more designer series models. But it wasn't Lincoln that started the rage. They just executed on the theme better. This book is a compilation of the automakers' media kits and brochures on the Couture Car. Included in quotes are the materials' descriptions of the packages and trim specifications which entice shoppers with glowing terms and promises of superb driving, touring and living.

Operation Mexico! Jun 02 2020 Carl Kiekhaefer vs the 1951-53 Pan American Road Race For five years, Mexico staged a car race that held the sporting world mesmerized for a week of thrills, spills, and chills. Competitors came from all around the world to participate in this brutal race of about 2,035 miles over rugged terrain. Goliaths of the car industry soon discovered the race provided a platform to test new products and rise within the U.S. market. It wasn't long before an intense competition between big players like Chrysler Corporation and Daimler-Benz emerged, and the legendary Carl Kiekhaefer found himself at the heart of not only a dangerous physical race but a fierce battle to be at the top of U.S. motor manufacturing. That position afforded a larger-than-life prestige and power. Carl was a hard-driving, competition-loving Wisconsin industrialist and manufacturer of outboard motors, chainsaws, and military drone engines. He surely would not bow down to political pressure, rigged races, sabotage, or threats. And so the stage was set for the Pan American Road Race-a spectacular spectacle, never to be forgotten. ***** This book explains, in detail, Carl Kiekhaefer's involvement with the Mexican Road Race during the early 1950s. The post race controversy following the November 1952 race reshaped Carl's approach to race car preparation, which paid huge dividends in the mid 1950s when he fielded stock

car racing teams. By the 1953 PARR, Carl was fully engaged in beating the factory-backed Lincolns, but was foiled by suspected sabotage, catastrophic mechanical failures and bad luck. What allowed Carl to be competitive in the Mexican Road Race was Chrysler's FirePower (Hemi) V8 engine. Beginning in 1951, the FirePower V8 was utilized by notable motorsportsmen during the 1950s to achieve racing successes around the world.
