The HSK 汉语水平考试 (Hànyǔ Shuǐpíng Kǎoshì), or Chinese Proficiency Test, is the standardized exam roughly equivalent to a TOEFL for Mandarin. It covers academic, professional, and daily life Chinese skills, making it appropriate for anyone who wants to obtain official credentials for their Chinese ability or just track their learning. As with any test, practice makes perfect. Consistent exposure and experience with Chinese grammar structures and instances of how vocabulary words are used properly is necessary with the HSK. The HSK is a great opportunity to be rewarded for your Chinese studies, and this HSK Vocabulary flashcards aim to help you success with your HSK Test exam. Updated and restandardised, these group tests allow you to assess pupils' general ability independently of their reading, and help to identify underachieving pupils from age 6 to 14. The New Non-Reading Intelligence Tests (NNRIT) comprise three tests for

use with separate age groups: NNRIT 1 is for pupils aged 6:2 to 8:10; NNRIT 2 is for ages 7:2 to 9:10; and NNRIT 3 is for ages 8:2 to 11:10 in primary schools and 10:2 to 13:10 for average- and lower-ability students in secondary schools. These are group tests are presented orally by the teacher, enabling general ability to be assessed independently of reading. The NNRIT tests assess aspects of language and thinking that are not necessarily represented in measures of pupil attainments, and help to pinpoint low-achieving and slow-reading pupils who may nevertheless have high underlying ability. Fully updated and restandardised on over 8000 pupils, the NNRIT tests retain the administrative simplicity which makes them so easy to give and score. This revision updates the item vocabulary and contexts, while also reducing the number of questions - from 80 to 60 items per test - making administration and scoring even quicker. Each test takes about 30-35 minutes to give. The NNRIT tests do not employ reading, pictorial or numerical items, and the oral administration allows poor readers to do themselves full justice. Each test comprises four language-based subtests - which one?, odd-one-out, analogies and opposites - each prefaced with two practice questions, and expresses a pupil's ability as a standardised score. The same marking template can be used with all three tests. Provides students with opportunities to improve their rapid calculation skills with essential addition and subtraction facts. HSK (Hanyu Shuiping Kaoshi) or the Chinese Proficiency Test is an international standardized exam that tests and rates Chinese language proficiency. The HSK is a standardized

international Chinese proficiency test for non-native speakers. The HSK tests students' ability to apply the Chinese language in their studies, personal life, and work.
